Educator's Corner

DON'T WASTE YOUR TIME AND MONEY ON COURSES THAT DON'T WORK! WHY NOT MAKE EXCELLENT USE OF YOUR CHILD'S SUMMER?

Dear Concerned Parent,

Imagine your child getting \$180,000.00 a year—
That's the average starting salary for MBA graduates from
Stanford or Harvard. Things only get better from there.

Even if your child is only in the 10th grade... **NOW**
is the time to prepare for the SAT's and the ACT's. Why?
Because you can't wait until the last minute to get a perfect or
near-perfect score.

It takes practice and preparation!!!

If you want a better school for your child... **if you**
want better opportunities for your child... you need to take
action **NOW** to get SAT's, ACT's AP's and CLEP's scores up
to perfect or near-perfect levels.

I know this “game” perhaps better than anyone alive.
I've taken the SAT's many times. **I've gotten a perfect**
score of 800 three consecutive times. I've got almost all
of the tests administered for the last 35 years. Some of them
are published. Some are not. I can teach your child **HOW** to
fearlessly take the test and come out with an amazing score. But
we need to get started right away.

Listen... the SAT's are almost always more important
than any high school grade point average (GPA) your child
will get. Why? Because college entry boards know that high

schools are under **political pressure to almost give away diplomas.** Therefore—GPA's are not as reliable as SAT scores.

My name is Jim Judson. I'm the President of Tri-State Tutoring. I've been in the education business for years and years. I've got degrees from Columbia. And I even went to the Navy Nuclear Power School in my younger days.

But what's most important to you is this: I've mastered the art and science of helping your child get amazing scores on Scholastic Aptitude Tests (SATs).

Not only have I taken the tests many, many times and gotten a perfect score three consecutive times. I have also mastered the art and science of being an amazing tutor for your child. Let me explain:

Broadly speaking there are two kinds of children out there.

1. Children who are **motivated.**
2. Children who are **not motivated.**

I know how to work with both kinds of children. With the motivated children **I'm a "coach".** With the unmotivated children I'm a **"Personal Trainer."** And this is good news for you if you want to give your child the gift of better life... with better problem-solving skills.

You read that right. We're not just talking about making a "killer" score on the SAT's and ACT's. But, we're talking about what happens to your child **AFTER** they get out on their own.

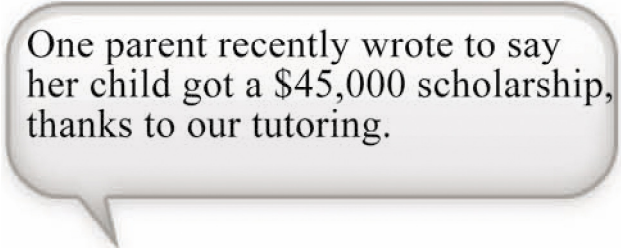

It's a fact... if you get better scores on your SATs... you get into better schools. If you get into better schools... you get better jobs. If you get better jobs you make more money. And no matter how you slice it... **money helps.**

You'll be thrilled to know we have

helped hundreds of students prepare for and get awesome grades when they go in for these tests.

We've watched as one student after another thrillingly **opened top-ranked college acceptance letters.**

Yale—Cornell—Harvard—Stanford-Princeton... You name it. We've gotten the nicest testimonial letters you'd ever want to see.

One parent recently wrote to say her child got a \$45,000 scholarship, thanks to our tutoring.

And let's not forget the access to **scholarships!!!**

I'm not telling you all this to brag... **but to urge you to take action NOW.** Don't wait another moment to get your child the help he or she needs to make an amazing score on these tests.

HERE'S HOW IT WORKS.

1. If you leave it up to the last minute... you're shooting yourself or your child in the metaphorical foot. Why? Because like any sport... **it's NOT the will to WIN... but the WILL to PREPARE...** that's what separates the winners from the losers.
2. Even if your child is getting good grades in school now, don't wait to be surprised by this "FASTBALL-CURVE" called the SAT's. These tests are up to 4 hours in length. These tests are "twicky". But I know the "twicks."
3. If your child is motivated, it will make my job a little easier. If not, it will take a bit more time, but I'm patient and I love to see my students excel.

PHONE NOW: 1-516-236-3479

4. When I (or one of my co-workers) come to your house to work with your child, we'll bring all the books, tests, tips and advice you'll need. Remember, we've collected the test questions going back 35 years.

5. I'll not only teach your child **HOW TO THINK...** but **HOW TO TAKE THE TEST!** You see, **THE WAY** you take a test is almost as important as what's between your ears.

6. Finally, I won't send your child out to take the test until I'm confident he or she will do well.

PLEASE NOTE: Most children don't know how serious this one moment in their life is. They might just think it's no more important than not skipping class.

But you and I know, the score they get on the SAT's or ACT's could mean *the difference between a mediocre life... and a life filled with success and excitement.* It could mean hundreds upon hundreds of thousands of dollars to your son or daughter's future income.

That's why you should not leave their test scores up to chance. My services are cheap compared to what's at stake.

I'm the only private tutor I know of who "wrote the book" on the importance of the SAT's. It's called **A PARENTS' GUIDE TO COLLEGE ADMISSIONS.** I'll give you a copy **FREE** if you mention it when you call.

Plus, to the best of my knowledge, I'm the only private tutor in the USA to offer a...

Your child will improve their test scores GUARANTEED if they follow my program. Your child must do the minimum of one 2-hour session per week per SAT or ACT section for a total of 20 hours per SAT or ACT section before the first additional exam. Then, they must take the test (ACT or SAT) an additional time and take weekly 2-hour sessions up to the second additional exam. Then, if your kid's test scores don't improve after the two additional official tests given by the College Board or ACT we'll refund your money. **That's how confident we are about our services.**

You can schedule any amount of time you want. But we feel it's best to book at least a 2-hour session each week until the exam time... in most cases. A two-hour private tutoring session will cost only about ~~\$499~~. **Only \$399!!! Limited time only!!!**

And that's not much when you're thinking about your child getting into an Ivy-League school and making 2 times... 3 times... up to 4 times the national average in yearly income.

Stop what you're doing and call this number: **1-516-236-3479**

Most likely I will take your call personally. I'm not hidden behind a wall of secretaries. When you call, I'll ask you a few questions about your situation and your child's situation. We'll talk about the future and make a plan. Then we will set an appointment to come out and get acquainted.

We'll bring all the materials your child will need. And we'll get started insuring your child's bright and happy future.

Remember, dollar for dollar... hour for hour... this is the best investment you can find for your child's time and your money. It's a small price to pay for such HUGE REWARDS.

Roughly 45% of your child's criteria for college acceptance is based on his or her test scores.

Wait, I almost forgot... We also help your child with the college application process and the essay. That's a value in and of itself.

I want to **THANK YOU**, in advance, for giving us the opportunity to help you and your child get a real "JUMP START" in life. Getting a "**whopping**" good score on the SAT's will make you and your child proud.

Call me now... there is a lot of work to do... **Practice, Practice, Practice!** That's the name of the game.

Sincerely yours

For Your Child's Future

Tri-State Tutoring.

P.S. ONE MORE THING. It might be important: It took me **two years** to get a perfect score on the SAT's. And **I was MOTIVATED!** That's why I can say with conviction: *Don't Put This Off Till The Last Minute!!!* Even if your child is in the 10th grade... that's not too soon to start.

P.P.S. Again, there are two great reasons to do this: First, your child will make more money over their lifetime. And second, they will have a different approach to problem-solving skills throughout their lives. And THAT is a gift worth giving. Call me now!

P.P.P.S. For the **next 11** clients that reserve **weekly lessons**, before **July 15th, 2009**, we are offering **an additional \$79 off per lesson, for as long as you maintain weekly lessons!!! That's over a third off our \$499 price or 2-students-for-1 for only \$499!**
